

The Quik Beats - Tech Rider (2018-19)

(Left to Right: Nick, Jeff, Jules, Sam, Mark)

Technical specifications

The Quik Beats are a five piece band that require a minimum of approximately 20ft backline space to setup and perform in, anything less than this would need to be discussed but has been known!

We have 3 backing vocalists and a 4 piece drumkit and real (but compact) Hammond organ and Leslie speaker backline. Should the venue not have a PA we can provide a 5k portable full-range RCF PA rig (inc. monitors) with Mackie desk and 50ft multi-core for smaller venues, along with 2 banks of 4 Par can lights on stands together with floor-mounted lights and various 60's oil wheels and peripherals.

Name / Description	Position	Instrument	Details
Sam - Guitar and Vocals	Stage Right	Fender Deville 1x12 Amp	Single cab microphone
		Backing Vocals	Microphone and angled stand
Mark - Vocals	Centre-Front	Vocal	Microphone and valence stand (provided)
Jules - Drums	Centre-Rear	4 piece kit, HitHat, Ride and Crash	Microphones as appropriate for venue size
			Can supply own Mics on request
Jeff - Bass and Vocals	Stage-Left Rear	Trace Elliott Bass Combo	DI Output
		Backing Vocals	Microphone and valence stand
Nick - Organ and Vocal	Stage-Left Front	Hammond A5 Organ	
		Leslie 145 Rotary speaker	Leslie requires a minimum of two instrument microphones, preferable bass/bass drum mic for bottom rotor (i.e. SM52a) and more standard intrument mic for top (i.e SM57). Windshields required to reduce 'flutter'. (Can supply own mics on request)
		Backing Vocals	Microphone and angled stand
Overall Mix	Hammond Organ heavy (equal to guitar level) with up to 4 simultaneous vocals. Guitar and Organ have two volume settings (Rhythmn and Lead)
